Education

PhD	Stanford University	Aeronautical and Astronautical Engineering	2020
	Co-advisors:	*Gianluca Iaccarino and Art B. Owen*	
MS	Stanford University	Aeronautical and Astronautical Engineering	2018
BS	Olin College of Engineering	Mechanical Engineering	2014

PhD Thesis

"Precision Margin: Rigorous Tools and Strategies for
Aircraft Design Under Uncertainty"

Competitive aircraft design walks a fine line, balancing weight reduction with aircraft safety. Design tends to lean conservative, with cascaded margins to address uncertainties. This thesis introduces design margins that *provably* yield minimal weight penalties at desired levels of safety. Comparisons against industry standards, tractable approximations, and ramifications for both conceptual and detailed design are considered.

Grants and Fellowships

Source	For	Size	
DIF Grant, Vice Provost for Graduate Education	SeeME	$1,500	2019
Grant to support outreach activities, Stanford internal			
Teaching Advancement Grant, Vice Provost for Teaching and Learning	SeeME	~$470	2019
Travel grant to attend NABI summit 2019, Stanford internal			
SPICE Grant, Vice Provost for Graduate Education	ASEE	$2,500	2018
Grant to support club activities, Stanford internal			
Teaching Advancement Grant, Vice Provost for Teaching and Learning	ASEE	~$800	2018
Travel grant to attend ASEE Annual Conference 2018, Stanford internal			
Diversifying Academia, Recruiting Excellence (DARE) Fellowship	-	~$116,000	2018
Competitive fellowship for promising faculty candidates, Stanford internal			
Statistical Perspectives on UQ (SPUQ) travel award	-	$500	2017
Travel grant to attend SPUQ 2017, SAMSI-funded			
Stanford Speaker's Bureau Co-sponsorship	ASEE	$1,500	2017
Pitch-based funding for ASEE Colloquium 2017, Stanford internal			
NSF Graduate Research Fellowship	-	~$300,000	2015

Honors and Awards

Patricia Cross Future Leaders Award — 2020
Competitive award for graduate students with promise as future leaders of higher education; administered by the Association of American Colleges & Universities

Stanford MECON Oral Presentation award, 1st place — 2017
Mechanical Engineering Department-sponsored speaker competition

AIAA Jefferson Goblet Best Student Paper — 2017
Highest honor for student papers at AIAA SciTech annual conference

Teaching Experience

Course Instruction

Uncertainty Quantification, (ME 470) Stanford *Designed, implemented, and delivered graduate-level elective course for 9 advanced students. Taught using a mixture of lecture and evidence-based methods. Sought professional consultation for mid-quarter feedback and implemented changes.*	Spring 2019
Uncertainty Quantification, (ME 470) (Two lectures) Stanford *Guest lecturer. Developed two lectures plus supporting notes, and designed a homework to reinforce content. Iterated on this content in 2019.*	Winter 2018

Academic Workshops

Materials Informatics Workshop, (Citrine Informatics) Georgia Tech *Designed and facilitated a two-day workshop on materials informatics at Georgia Tech, sponsored by the Institute for Materials. Led a team of 7 TA's to teach ~ 15 participants.* https://citrineinformatics.github.io/ga-tech-workshop/	2019
Teacher Workshops, (SeeME) Stanford *Developed and delivered workshops on the fundamentals of teaching, including lessons on learning goals and The 5E Model. Ran workshops for audiences of ~ 10.*	2019
Groupwork Workshop, (VPTL Consultant) Stanford *Co-developed and delivered workshop on evidence-based best-practices for groupwork in the classroom. Digested, summarized, and applied education literature, designed hands-on activities, co-facilitated workshop on several occasions for audiences of ~ 16.*	2018-2019

External Outreach

Intro to Exploratory Data Analysis, (SeeME) Stanford *Introductory hands-on class to introduce students to principles of visualization, exploring data, understanding trends, and basic causal reasoning.* https://github.com/zdelrosario/teaching-eda	2016
"What the heck is engineering?", (Splash) Stanford *Introductory discussion-based class meant to introduce middle- and high-school aged students to engineering as a profession.*	2014-2015

Assistantships

Applied Aerodynamics, (AA 200) Stanford *Held office hours, graded homeworks and exams.*	2016
Partial Differential Equations, Olin College *Held office hours, graded homeworks and exams.*	2014
Machine Shop Instructor, Olin College *Taught basic machine shop operations, milling, turning, shop safety.*	2014
Transport Phenomena, Olin College *Heat transfer and fluid mechanics; held office hours, graded homeworks and exams.*	2013
Linearity, Olin College *Introductory linear algebra; held office hours, graded homeworks and exams.*	2012

Teaching Competencies

Mathematics	Linear Algebra, Ordinary/Partial Differential Equations, Numerical Analysis, Optimization
Statistics	Probability, Estimation, (Multivariate) Regression, EDA, Machine Learning
Engineering	Fluid Dynamics, Solid Mechanics, Aerodynamics, Human-centered Design
Languages	Python (Numpy/Scipy, Pandas, Matplotlib), R (Tidyverse)

Mentoring

Mentee	Project advised	
Gitanjali Bhattacharjee	Former student (ME 470) used sensitivity analysis to study transit network reliability and bridge retrofitting. Focused on modeling decision processes and uncertainty arising from bridge fragility. Connected student to experts on sensitivity analysis.	2019
Sita Syal	Former student (ME 470) performed soft cost analysis for solar farm leasing. Focused on modeling cost uncertainties and advised student on how to strategically leverage her NREL contacts in her research agenda.	2019
Mark Benjamin	Rotation student investigated reliability-based design optimization strategies, focusing on comparing various density-matching approaches.	2018

Writing Consultee	Outcome	
Cindy Nguyen	NSF GRFP; Stanford, Electrical Engineering	2019
Larissa Little	NDSEG; Harvard, Materials Science	2018
Mason del Rosario	NSF GRFP Honorable Mention; UC Davis, Electrical Engineering	2018
Rongfei Lu	Stanford, Aeronautics and Astronautics	2018
Emma (Zeyan) Xu	NSF GRFP; Columbia, Material Science	2017

Employment

Statistical Consultant (Citrine Informatics)   October 2019-Present

Supporting government-funded research projects with numerical and graphical statistical analyses. Co-author on resulting publications.

Instructional Designer and Data Scientist (Citrine Informatics)   Summer 2019

Developed and delivered 2-day workshop at Georgia Tech on Materials Informatics. Developed novel strategies for active learning in support of materials discovery.

Teaching Consultant (Stanford VPTL)   2018-Present

Professional teaching consultant, employed by the office of the Vice Provost for Teaching and Learning (VPTL). Used training in pedagogy and mentorship to carry out consultations with fellow graduate students. Co-facilitated various workshops, and co-developed novel workshop material on Groupwork.

Research intern (Northrop Grumman Corporation)   Summer 2017

Developed statistical methods to identify anomalies in time series data. Supported exoplanet detection research team.

Service and Leadership

Co-Chair (ASEE, Task Force on Graduate Student Affairs)   2019-Present
   Appointed by the president of the American Society for Engineering Education (ASEE) national organization to co-chair a task force studying how our professional society can serve graduate students.

President (American Society for Engineering Education, Stanford Chapter)   2018-2019
   Led and served on a 5-person organizing team. Organized a seminar sequence with internal and external speakers. Directed a Colloquium event attended by 70 persons, featuring workshops on "The Fundamentals of Teaching."

Founder and Director of Curriculum (SeeME)   2017-Present
   Co-founded Stanford Mechanical Engineering's student-run research outreach program SeeME. Developed and delivered workshops to train grad student instructors. Wrote grants to support operations and conference travel. Served as program leader and interfaced with the Department Chair.

Financial Officer (American Society for Engineering Education, Stanford Chapter)   2017-2018
   Served on 4-person organizing team. Wrote and won grants to fund speaker series and Colloquium. Point person on organizing seminar sequence.

Chair of Teacher Development (Stanford Splash)   2014-2016
   Served on 20-person organizing team serving thousands of high school students. Owned our teacher training program; co-facilitated workshops to introduce Stanford students to the basics of teaching. Enhanced teacher evaluations by introducing new survey system.

Robotics Mentor (FIRST Robotics, Team 751)   2014-2016
   Volunteered on 3-mentor team for a high-school robotics program. Taught machine shop operations (milling and turning), mechanical design and drawing, coordinated travel logistics for away competitions.

Media Appearances

➤ ASEE Prism, October 2019

➤ Stanford Daily, January 2019

➤ Stanford News, April 2018

Licenses and Certifications

➤ Private Pilot, Single engine land, Certificate Number 3386055

➤ Amateur radio operator, Technician Class, call sign KC3HMT

Skills

Academic	Linear Algebra, Aerodynamics, Optimization, Statistics, User-Centered Design
Computer	Python, R/Tidyverse, c++, MATLAB, MPI, Legion/Regent, Unix, SolidWorks, LATEX
Machine Shop	Manual and CNC milling, Manual turning, Laser cutting

The Analyst's Entreaty:
"Grant me the insight to neglect the terms I do not need,
Tenacity to understand strange interactions,
And wisdom to know the (significant) difference."
